The tangerine stalin has gone too far.

There is only one response, whenever another crime is committed by the tangerine stalin, this is my response.

This is the perfect time for our military to follow their oath of office to defend the US Constitution from all enemies foreign and DOMESTIC. More than 2/3rds of the nation will support you. 70% wanted the tangerine stalin convicted and removed during the impeachment trial. His actions during the Coronavirus pandemic mimic that of his North Korean counterpart, which will result in many more Americans becoming ill and dying.

The Senate could have removed him and maybe lessened the non-response to the virus early on through impeachment. But no, and they continue to kiss his ass daily. The tangerine maggot insists on calling the MSM who write the truth, the "Enemy of the People. He is, in fact, the enemy of the people; far more sinister than outside forces.

This is the only option prior to November. Don't be afraid of this tangerine coward. Real Americans won't even notice he is gone. Once the tangerine maggot installs his lackeys in the military, we are dead.

Claim: Foreign countries can counterfeit ballots to affect U.S. elections. Fact check: False

"And if foreign countries want to, this is an easy system to break into because they'll do counterfeit ballots. They'll do counterfeit ballots by the millions. So when you talk about China, Russia, North Korea, Iran, all the countries you talk about, that's peanuts — that's all peanuts compared to this. But this is their opening, because they can use nice, cheap ballots, and they can send them out, counterfeit them, and just send them in. This is a disaster, and they should stop it before it's too late." — President Trump speaking to a Sept. 23, 2020, press conference
